

## CONTENTS

Volume 180, no. 1 and no. 2

<b>Peter Duren and Walter Hengartner</b> , Harmonic mappings of multiply connected domains .....	201
<b>Georg Eulerling and Martin Krüskemper</b> , On zeros of bounded degree of systems of homogeneous polynomial equations .....	1
<b>Sam Evens</b> , On Springer representations and the Zuckerman functor .....	221
<b>A. Fahim</b> , Extensions Galoisiennes d'algèbres différentielles .....	7
<b>Suren L. Fernando</b> , Reflection groups and a convolution theorem .....	229
<b>Jacqueline Ferrand</b> , Conformal capacities and extremal metrics .....	41
<b>Jeffrey Fox and Peter Haskell</b> , $K$ homology and regular singular Dirac-Schrödinger operators on even-dimensional manifolds .....	251
<b>Peter B. Gilkey, S. Nikčević and J. Pohjanpelto</b> , The local index formula for a Hermitian manifold .....	51
<b>Jiandong Guo</b> , Uniqueness of generalized Waldspurger model for $GL(2n)$ .	273
<b>Atanas Iliev</b> , The Theta divisor of bidegree $(2, 2)$ threefold in $\mathbb{P}^2 \times \mathbb{P}^2$ ....	57
<b>Oliver Jones</b> , On the geometry of varieties of invertible symmetric and skew-symmetric matrices .....	89
<b>Heping Liu and Lizhong Peng</b> , Admissible wavelets associated with the Heisenberg group .....	101
<b>John McCuan</b> , Symmetry via spherical reflection and spanning drops in a wedge .....	291
<b>Robert Molzon and Karen Pinney Mortensen</b> , Univalence of holomorphic mappings .....	125
<b>Nazih Nahlus</b> , Basic groups of Lie algebras and Hopf algebras .....	135
<b>Ramin Naimi</b> , Constructing essential laminations in 2-bridge knot surgered 3-manifolds .....	153
<b>Kenneth A. Ross and George Willis</b> , Riemann sums and modular functions on locally compact groups .....	325

<b>Laurent Saloff-Coste and Wolfgang Woess</b> , Transition operators, groups, norms, and spectral radii .....	333
<b>Nobuya Sato</b> , Two subfactors arising from a non-degenerate commuting square. An answer to a question raised by V.F.R. Jones .....	369
<b>Brett A. Tangedal</b> , A question of Stark .....	187
<b>Thomas I. Vogel</b> , Sufficient conditions for multiply constrained extrema ..	377
<b>Yuanli Zhang</b> , The holomorphy and nonvanishing of normalized local intertwining operators .....	385
