Volume 188, no. 1 and no. 2

Andrew Acker , On the successive approximation of classical solutions for multi-surface free-boundary problems with general non-linear joining conditions	1
J. Arroyo, M. Barros and O.J. Garay , Willmore-Chen tubes on homogeneous spaces in warped product spaces	201
Werner Balser , Divergent solutions of the heat equation: On an article of Lutz, Miyake and Schäfke	53
Pierre Bieliavsky, Elisha Falbel and Claudio Gorodski , The classification of simply-connected contact sub-Riemannian symmetric spaces	65
Guangfu Cao , Fredholm properties of Toeplitz operators on Dirichlet spaces	209
M. Chuaqui and Ch. Pommerenke , Characteristic properties of Nehari functions	83
B. Corbas and G.D. Williams , Congruence of two-dimensional subspaces in $M_2(k)$ (characteristic $\neq 2$)	225
B. Corbas and G.D. Williams , Congruence of two-dimensional subspaces in $M_2(K)$ (characteristic 2)	237
Louis Funar , On the TQFT representations of the mapping class groups ..	251
Sungbok Hong and Darryl McCullough , Ubiquity of geometric finiteness in mapping class groups of Haken 3-manifolds	275
U. Keich , Absolute continuity between the Wiener and stationary Gaussian measures	95
U. Keich , The entropy distance between the Wiener and stationary Gaussian measures	109
Mikhail Khovanov and Greg Kuperberg , Web bases for $\mathfrak{sl}(3)$ are not dual canonical	129
Guido Lupacciolu and Edgar Lee Stout , Continuous families of nonnegative divisors	303
Alfonso Montes-Rodríguez , The essential norm of a composition operator on Bloch spaces	339

Luisa Paoluzzi and Marco Reni , Homologically trivial actions on cyclic coverings of knots	155
G.B. Podkolzin and L.I. Vainerman , Quantum Stiefel manifold and double cosets of quantum unitary group	179
R. Smith and R. Varley , On the geometry of two dimensional Prym varieties	353
P.G. Walsh , On the complexity of rational Puiseux expansions	369
Giuseppe Zampieri , A new class of “boundary regular” microdifferential systems	389
