

CONTENTS

Hyoungsick Bahn and Sungpyo Hong , Isoperimetric inequalities for sectors on surfaces	257
Bradley W. Brock and John M. Steinke , Local restrictions on nonpositively curved n -manifolds in \mathbf{R}^{n+p}	271
Andrea Cianchi , A fully anisotropic Sobolev inequality	283
A. Cueto-Hernández and G.D. Villa-Salvador , Nilpotent extensions of number fields with bounded ramification	297
Hany M. Farag , Curvatures of the Melnikov type, Hausdorff dimension, rectifiability, and singular integrals on \mathbf{R}^n	317
Daniel R. Farkas, Edward L. Green and Eduardo N. Marcos , Diagonalizable derivations of finite-dimensional algebras II	341
Davide L. Ferrario , Equivariant deformations of manifolds and real representations	353
Terry Fuller , Hyperelliptic Lefschetz fibrations and branched covering spaces	369
David Futer, Andrei Gnepp, David McMath, Brian A. Munson, Ting Ng, Sang-Hyoun Pakh and Cara Yoder , Cost-minimizing networks among immiscible fluids in \mathbb{R}^2	395
P. Gérardin and K.F. Lai , Asymptotic behaviour of eigenfunctions on semi-homogeneous tree	415
Luis Guijarro , On the metric structure of open manifolds with nonnegative curvature	429
Dan Haran and Moshe Jarden , The absolute Galois group of $C(x)$	445
G.P. Scott and G.A. Swarup , An algebraic annulus theorem	461
Farshid Hajir , Correction to “On a Theorem of Koch”	507
Acknowledgements	509
