

CONTENTS

Etienne F. Blanchard and Kenneth J. Dykema , Embeddings of reduced free products of operator algebras.....	1
Vera Carrara, J. Scott Carter and Masahico Saito , Singularities of the projections of surfaces in 4-space.....	21
Kwang-Wu Chen and Minking Eie , A note on generalized Bernoulli numbers.....	41
Wenxiong Chen and Congming Li , Prescribing scalar curvature on S^n ..	61
Anne Cumenge , Zero sets of functions in the Nevanlinna or the Nevanlinna-Djrbachian classes.....	79
Soo Teck Lee and Chen-bo Zhu , On the (\mathfrak{g}, K) -cohomology of certain theta lifts.....	93
Wim Malfait , Homotopically periodic maps of model aspherical manifolds.	111
Mara D. Neusel , The transfer in the invariant theory of modular permutation representations.....	121
R.C. Orellana , The Hecke algebras of type B and D and subfactors.....	137
Shu-Yen Pan , Splittings of the metaplectic covers of some reductive dual pairs.....	163
Sérgio L. Silva , On isometric and conformal rigidity of submanifolds.....	227
Wojciech Szymański , Simplicity of Cuntz-Krieger algebras of infinite matrices.....	249
